Request received by email to Ofcom 13 February 2017:

"I am looking for an up-to-date list of the suppliers of wholesale news to commercial radio stations in the UK. Could you point me in the direction? Any help would be greatly appreciated."

Further request, in response to acknowledgment email:

"Many thanks for your email and for initiating the FOI. I will also need historical data for wholesale news to commercial radio stations in the UK from 2013 to present. Can you tell me if this can be included in the same FOI or if I need to submit a new request?"

Ofcom's response to both requests, 13 March 2017:

Thank you for your request. You asked for:

- *an up-to-date list of the suppliers of wholesale news to commercial radio stations in the UK; and*
- *historical data for wholesale news to commercial radio stations in the UK from 2013 to present.*

You will be aware that we publish annually a news monitoring survey in which we present a chart of wholesale news providers, here: <https://www.ofcom.org.uk/research-and-data/tv-radio-and-on-demand/tv-research/news-consumption-2015>.

The underlying data tables are also published, linked from the same page.

We have not yet prepared our 2016 report.
