Subject: [REDACTED]

Thank you for your previous engagement on the installation of new telecoms infrastructure, particularly telegraph poles, under the previous Government.

Please see a letter attached from the new Minister of State for Telecoms, Minister Bryant on this issue.

He would like to invite you all to a meeting with him to discuss further steps to minimise disruption from the installation of new infrastructure, including an updated Cabinet Siting and Pole Siting Code of Practice. This round table is currently scheduled for **Thursday the 12 September at 11.15-12.30**. An invite with further details and an agenda will follow shortly.

Thanks and best wishes,
