

Licence type / class		Total spectrum management costs 2013/14 £'000	Total fees invoiced 2013/14 £'000
Licence exempt classes		4,190	-
Satellite filings	a	1,219	-
Free lifetime licence classes	b		
Amateur radio		1,753	10
Ships radio		1,077	6
Cost-based licence classes			
Business radio - light licences	c	808	281
Fixed wireless access (5.8 GHz) - light licences		305	22
Fixed wireless services (fixed links) - light licences		141	34
Maritime - light licences		210	34
Radio broadcasting	d	3,558	3,508
Satellite - light licences		348	31
Science and technology - light licences		9	2
Science and technology - technically assigned		609	81.5
TV broadcasting	e f	1,125	180
Outsourced licence classes: Aeronautical and PMSE (programme making and special events)	g	4,910	3,622
Administered Incentive Pricing (AIP) licence classes			
Business radio - area defined		209	4,301
Business radio - technically assigned		7,007	4,101
Fixed wireless service (fixed links) - technically assigned		2,172	23,107.5
Maritime - area defined		138	10
Maritime - technically assigned		552	418
Public safety / emergency services		858	5,283
Public sector spectrum (MoD)		314	154,878
Public wireless network (Mobile) + Fixed wireless access (BB) licences		10,707	67,189
Satellite - technically assigned		823	1,066
Space science		503	806
Spectrum access (eg. block assigned spectrum)		366	-
TOTAL - ATTRIBUTABLE Costs / Fees	h	43,911	268,971
TOTAL SPECTRUM MANAGEMENT COSTS	i	52,805	
<p>^a We are unable to recover costs associated with satellite filings under current legislation</p> <p>^b Fee receipts reflect non-online licence applications (which attract a fee of £20)</p> <p>^c By light licences we are referring to licences which are not technically coordinated and assigned by Ofcom</p> <p>^d Radio broadcasting licence class includes analogue and digital radio services</p> <p>^e Set-up costs for local TV licensing have been excluded from this cost figure</p> <p>^f Fee figure reflects 600MHz WT Act licence fee. This licence is outside the scope of our cost based fee review (and no fees for other DTT multiplexes were collected in 2013/14)</p> <p>^g Outsourced licence class figures are subject to contractual terms and have been combined in this table - PMSE is a cost based class; Aeronautical comprises both cost and AIP classes</p> <p>^h Cost figure represents the total spectrum costs which are attributable to individual sectors</p> <p>ⁱ Figure represents total spectrum management costs as published in our Annual Report. It includes spectrum costs which are non-attributable to individual sectors, such as where we receive direct government funding for spectrum projects and funding for costs associated with the Olympic/Commonwealth Games.</p>
