Question 1: Should the licensee (Sound of Merseyside Ltd) be permitted to make its proposed changes to the Format of Radio City 2, with particular regard to the statutory criteria set out in Section 2 of this consultation document? (Section 106 (1A) of the 1990 Broadcasting Act, as amended, relating to Format changes):

No - I think this frequency should be re tendered to a radio station / company willing to offer a local station for the local People.

Question 2: Should the licensee (Sound of Merseyside Ltd) be permitted to make its proposed changes to the Format of City Talk, with particular regard to the statutory criteria set out in Section 2 of this consultation document? (Section 106 (1A) of the 1990 Broadcasting Act, as amended, relating to Format changes):

No - This station is the only part of a once Liverpool owned name that is left. It acts as an alternative to the repetitive nonsense that Bauer call local Radio. If Ofcom are looking after the interests of the listeners, then they should enforce the original licence for this station and bring back more speech and sport led programmes.

Additional comments:

Bauer Media has continued to chip away at the local brand that was Radio City, What was once a brand that Liverpool was proud of, is now a national radio station that slowly has eradicated what is left of the name and what was once a radio station you would make a point of listening to. I think a stand should be made against these companies as clearly the best interest of the listeners are no longer taken into account. City have also announced they are dropping local football commentary too, in my opinion the final nail in the coffin. Radio City sound of Merseyside ... Live from somewhere other than Merseyside. Its an absolute joke.
