If you want part of your response kept confidential, which parts?:

Ofcom may publish a response summary:

Yes

I confirm that I have read the declaration:

Yes

Additional comments:

Question 1:Do you agree with the proposal to include, as a matter of course, the 470 kHz and 5 MHz bands into the Licence for all Amateur Radio (Full) licensees?:

The bands should be released but with the standard conditions of the licence as it is at present, not as proposed. In particular para 2.26.3 which extends non-interference to all electronic equipment. This puts the onus on amateurs for possible shortcomings in equipment manufactured by other and is not justified.

Question 2:Do you agree that expressly linking a Full (Club) Licensee?s authorisation to use the spectrum to his or her representation of a named club, and by adding a further ground for revoking the Licence to include

circumstances where the licensee no longer represents the club, will help ensure that a club's call sign remains with the club?:

Yes.

Question 3:Do you agree that Ofcom should include a further ground of revocation in the Licence as proposed above in order better to align Clause 4 with the definition of 'Disqualified Person':

Yes.

Question 4:Do you agree that the word 'automatically' should be removed from Clause 4(5) of the Licence, in relation to the revocation of the Licence for failure to comply with the revalidation requirements?:

Yes.

Question 5:Do you agree that Clause 15 of the Licence should be updated to reflect the wording included in Ofcom's General Licence Conditions Booklet?:

Yes.

Question 6:Do you agree that Clause 13 of the Licence should be amended to allow for a simpler, more flexible approach for identifying Amateur Radio stations?:

No. I am an amateur licence holder and the current requirements are not onerous, they should be left as they are.

Question 7:Given the current uncertainty amongst Radio Amateur licensees in relation to Clause 2(2), do you believe that it would be a practical solution for Ofcom to remove this Clause and to insert additional wording into Clause 13, as proposed above?:

No. The present requirements have worked well for many years and altering them as proposed would cause confusion both in the UK and for amateurs in other countries who communicate with UK stations. I dispute that there is "uncertainty" among radio amateurs with regard to clause 2.2.

Question 8:Do you agree with Ofcom's proposal to amend Clause 2(3) of the Licence to require Intermediate licensees to transmit a call sign that reflects the location of their main station?:

No. the present clause is perfectly suitable and should remain as is.

Question 9:Do you agree that replacing Clauses 2(1) and 16(1) with a new Clause to simplify and bring together all of the licence conditions relating to the operation of radio equipment away from the Main Station address will make these provisions clearer?:

Yes.

Question 10:Do you agree that the proposed changes will clarify RAYNET operation under the Licence?:

Yes.
