Additional comments:

Question 1:Do you agree with the proposal to include, as a matter of course, the 470 kHz and 5 MHz bands into the Licence for all Amateur Radio (Full) licensees?:

I agree , and i also think M3 and mobiles should be allowed to use this band as its good for uk working.

Question 2:Do you agree that expressly linking a Full (Club) Licensee?s authorisation to use the spectrum to his or her representation of a named club, and by adding a further ground for revoking the Licence to include

circumstances where the licensee no longer represents the club, will help ensure that a club's call sign remains with the club?:

I disagree. this proposal sounds like someone is bitter. clubs are bad news, so is the rsgb. they tend to only represent certain vocal people. I have been involved in radio for 40 years , the rsgb and clubs have done nothing for me.

Question 3:Do you agree that Ofcom should include a further ground of revocation in the Licence as proposed above in order better to align Clause 4 with the definition of 'Disqualified Person':

i disagree ofcom shoud be thinking or ways to make the license inclusive not dreaming up excuses to revoke lisenses.

Ofcom should use their powers to stop currys selling power line adaptors these cause more problems for radio than any single ham acting outside his or her terms.

Question 4:Do you agree that the word 'automatically' should be removed from Clause 4(5) of the Licence, in relation to the revocation of the Licence for failure to comply with the revalidation requirements?:

no and get rid of the ridiculose password recovery thing. after 5 years who the hell can remember what password they used .

Question 5:Do you agree that Clause 15 of the Licence should be updated to reflect the wording included in Ofcom's General Licence Conditions Booklet?:

think so

Question 6:Do you agree that Clause 13 of the Licence should be amended to allow for a simpler, more flexible approach for identifying Amateur Radio stations?:

no i think that every 15 mins is fine, we need to keep up standards of operation

Question 7:Given the current uncertainty amongst Radio Amateur licensees in relation to Clause 2(2), do you believe that it would be a practical solution for Ofcom to remove this Clause and to insert additional wording into Clause 13, as proposed above?:

no leave it as it is.

Question 8:Do you agree with Ofcom's proposal to amend Clause 2(3) of the Licence to require Intermediate licensees to transmit a call sign that reflects the location of their main station?:

yes this seems a good idea.

Question 9:Do you agree that replacing Clauses 2(1) and 16(1) with a new Clause to simplify and bring together all of the licence conditions relating to the operation of radio equipment away from the Main Station address will make these provisions clearer?:

yes remote operation is quite popular these days

Question 10:Do you agree that the proposed changes will clarify RAYNET operation under the Licence?:

yes i agree
