

Title:

Mr

Forename:

Alan

Surname:

Jubb

Representing:

Self

Organisation (if applicable):

Email:

What additional details do you want to keep confidential?:

No

If you want part of your response kept confidential, which parts?:

Ofcom may publish a response summary:

Yes

I confirm that I have read the declaration:

Yes

Additional comments:

Thank you for attending the RSGB Convention.

Question 1:Do you agree with the proposal to include, as a matter of course, the 470 kHz and 5 MHz bands into the Licence for all Amateur Radio (Full) licensees?:

No, not as proposed. I agree that the the 470 kHz and 5 MHz bands should be made available to all holders of a full licence. The existing wording for other bands that are used on a secondary basis should also be used for these bands.

Paragraph 2.26.3 should be restricted to wireless telegraphy equipment. Please delete paragraph 2.26.6.

Question 2: Do you agree that expressly linking a Full (Club) Licensee's authorisation to use the spectrum to his or her representation of a named club, and by adding a further ground for revoking the Licence to include circumstances where the licensee no longer represents the club, will help ensure that a club's call sign remains with the club?:

Question 3: Do you agree that Ofcom should include a further ground of revocation in the Licence as proposed above in order better to align Clause 4 with the definition of 'Disqualified Person'?:

Question 4: Do you agree that the word 'automatically' should be removed from Clause 4(5) of the Licence, in relation to the revocation of the Licence for failure to comply with the revalidation requirements?:

Question 5: Do you agree that Clause 15 of the Licence should be updated to reflect the wording included in Ofcom's General Licence Conditions Booklet?:

Question 6: Do you agree that Clause 13 of the Licence should be amended to allow for a simpler, more flexible approach for identifying Amateur Radio stations?:

I see no need to change this clause in respect of the need for the station to identify itself every 15 minutes. Identification should be compatible with the mode being used, but please do not be prescriptive about specific modes.

Question 7: Given the current uncertainty amongst Radio Amateur licensees in relation to Clause 2(2), do you believe that it would be a practical solution for Ofcom to remove this Clause and to insert additional wording into Clause 13, as proposed above?:

There is no uncertainty.. RSLs have been used for many years. The licence should mandate the use of RSLs to indicate the region in which the radio signal is emanating from.

Question 8: Do you agree with Ofcom's proposal to amend Clause 2(3) of the Licence to require Intermediate licensees to transmit a call sign that reflects the location of their main station?:

I disagree. As for foundation and full licensees, the RSL for intermediate licensees should be used to indicate the region in which the radio signal is emanating from. The RSL should NOT indicate the region of the main station, unless that is where the radio signal is emanating from.

Question 9: Do you agree that replacing Clauses 2(1) and 16(1) with a new Clause to simplify and bring together all of the licence conditions relating to

the operation of radio equipment away from the Main Station address will make these provisions clearer?:

Question 10:Do you agree that the proposed changes will clarify RAYNET operation under the Licence?:
