**Additional comments:**

**Question 1:Do you agree with the proposal to include, as a matter of course, the 470 kHz and 5 MHz bands into the Licence for all Amateur Radio (Full) licensees?:**

What concerns me is the fact that the words &quot;electronic equipment&quot; in clause 2.26.3 have been added after &quot;Wireless Telegraphy.&quot; The possible consequences of this change are impossible to quantify and should be deleted. The wording &quot;&ldquo;Secondary. Available on the basis of non-interference to other services inside and outside the UK&rdquo; would seem to be adequate

**Question 2:Do you agree that expressly linking a Full (Club) Licensee's authorisation to use the spectrum to his or her representation of a named club, and by adding a further ground for revoking the Licence to include circumstances where the licensee no longer represents the club, will help ensure that a club's call sign remains with the club?:**

**Question 3:Do you agree that Ofcom should include a further ground of revocation in the Licence as proposed above in order better to align Clause 4 with the definition of 'Disqualified Person':**

**Question 4:Do you agree that the word 'automatically' should be removed from Clause 4(5) of the Licence, in relation to the revocation of the Licence for failure to comply with the revalidation requirements?:**

**Question 5:Do you agree that Clause 15 of the Licence should be updated to reflect the wording included in Ofcom's General Licence Conditions Booklet?:**

**Question 6:Do you agree that Clause 13 of the Licence should be amended to allow for a simpler, more flexible approach for identifying Amateur Radio stations?:**

No. I believe that the current conditions on this subject are perfectly adequate and should not be changed.

**Question 7:Given the current uncertainty amongst Radio Amateur licensees in relation to Clause 2(2), do you believe that it would be a practical solution for Ofcom to remove this Clause and to insert additional wording into Clause 13, as proposed above?:**

I think the answer to this question is, &quot;If something is working well then leave well alone.&quot; I have never had any problems with understanding the present set-up and have never heard other radio amateurs expressing a desire for change.

**Question 8:Do you agree with Ofcom's proposal to amend Clause 2(3) of the Licence to require Intermediate licensees to transmit a call sign that reflects the location of their main station?:**

I strongly disagree with this proposal. All classes of licensee should be treated equally and to instigate any form of discrimination would be seen as reprehensible by the amateur radio community.

**Question 9:Do you agree that replacing Clauses 2(1) and 16(1) with a new Clause to simplify and bring together all of the licence conditions relating to the operation of radio equipment away from the Main Station address will make these provisions clearer?:**

Yes

**Question 10:Do you agree that the proposed changes will clarify RAYNET operation under the Licence?:**

I have never had any dealings with RAEN (now Raynet) and do not feel qualified to comment.
