

Title:

Mr

Forename:

Andrew

Surname:

Sinclair

Representing:

Self

Organisation (if applicable):

Email:

What additional details do you want to keep confidential?:

No

If you want part of your response kept confidential, which parts?:

Ofcom may publish a response summary:

Yes

I confirm that I have read the declaration:

Yes

Additional comments:

Question 1:Do you agree with the proposal to include, as a matter of course, the 470 kHz and 5 MHz bands into the Licence for all Amateur Radio (Full) licensees?:

No. Keep these as NOV bands until they are granted at a WRC

Question 2:Do you agree that expressly linking a Full (Club) Licensee?s authorisation to use the spectrum to his or her representation of a named club, and by adding a further ground for revoking the Licence to include circumstances where the licensee no longer represents the club, will help ensure that a club?s call sign remains with the club?:

Yes and yes.

Question 3: Do you agree that Ofcom should include a further ground of revocation in the Licence as proposed above in order better to align Clause 4 with the definition of 'Disqualified Person'?:

Yes

Question 4: Do you agree that the word 'automatically' should be removed from Clause 4(5) of the Licence, in relation to the revocation of the Licence for failure to comply with the revalidation requirements?:

Yes

Question 5: Do you agree that Clause 15 of the Licence should be updated to reflect the wording included in Ofcom's General Licence Conditions Booklet?:

Yes

Question 6: Do you agree that Clause 13 of the Licence should be amended to allow for a simpler, more flexible approach for identifying Amateur Radio stations?:

Yes but the phrase "transmitted as frequently as practicable" will be misused by some. I think there should be formal time limit after which an identification is needed.

Question 7: Given the current uncertainty amongst Radio Amateur licensees in relation to Clause 2(2), do you believe that it would be a practical solution for Ofcom to remove this Clause and to insert additional wording into Clause 13, as proposed above?:

In 24 years of operation I have never come across a UK amateur who did not insert an RSL when they were operating in the UK but outside of England. Never. I have not yet found any other amateur who has been active longer than myself who is aware of any UK amateur who does not operate the same way.

The system as described and as implemented by radio amateurs works fine and has done since the 1930's. Nothing needs to change.

Question 8: Do you agree with Ofcom's proposal to amend Clause 2(3) of the Licence to require Intermediate licensees to transmit a call sign that reflects the location of their main station?:

No, change the radio regulations so it describes the format of intermediate licences and the current de facto use of RSL by intermediate licences. That way intermediate licences can operate exactly the same as full and foundation licences.

Question 9:Do you agree that replacing Clauses 2(1) and 16(1) with a new Clause to simplify and bring together all of the licence conditions relating to the operation of radio equipment away from the Main Station address will make these provisions clearer?:

Yes

Question 10:Do you agree that the proposed changes will clarify RAYNET operation under the Licence?:

Yes
