Dear Sir / Madam

I am emailing on ESTV propose cut too local hours in primetime broadcasting. Having already been allowed too drop hourly local news headlines from the original application, it is hard too see what local it is if allowed to drop those local hours. Apart from Platform 8 which has been good, the news & current affairs has been sadly overall been disappointing.

Of course we want a thriving local tv network but it has too be what it say's on the tin or otherwise what is the point?.

ESTV original application has drastically changed & although they have so far stuck to their local hours , had they stuck with their original plan they might be better off.

Yours

Mark O'Reilly
