Questions

Question 3.1: Do you agree that the modification to the Numbering Plan that we propose – which would prohibit direct or indirect revenue-sharing with callers and/or end-users by those who use 03 numbers – is appropriate and proportionate to address the conduct of concern that we have described in this document? If not, please explain why.

I do NOT agree because it is unfair to stop any kind of revenue sharing on such numbers either by end user or any calling service company. This is because if a revenue sharing partner is providing cheap calling services (to international destination) or other services to the end user then it is fair to offer a reasonable return in leu of providing such services. Network operators charge enormous amount of charges for using such services therefore either network operator should make these charges in-line with Calling Card services or Revenue Sharing partners should be permitted to continue using 03 numbers.

Question 4.1: Do you have any comments on the draft modifications to the Numbering Plan that we are proposing, as set out in Annex 7? Where you disagree with any of the proposed modifications, please explain why.

it is unfair to stop any kind of revenue sharing on such numbers either by end user or any calling service company. This is because if a revenue sharing partner is providing cheap calling services (to international destination) or other services to the end user then it is fair to offer a reasonable return in leu of providing such services. Network operators charge enormous amount of charges for using such services therefore either network operator should make these charges in-line with Calling Card services or Revenue Sharing partners should be permitted to continue using 03 numbers.
