

## Ofcom's proposed changes to the GCs

### Proposed modifications to the preamble to GC C1

This condition aims to protect consumers and end-users by ensuring that contracts for public electronic communications services include key information about the services they are receiving and that such information is provided to them before they enter into their contract to allow them to make an informed choice. This includes information about any changes to the price that consumers and end-users will face during their contract, in order to provide them with certainty as to the amounts they will be required to pay, unless the customer is given a right to exit their contract without penalty. It also sets out requirements about contract duration, contract renewal, end-of-contract notifications, annual best tariff information, facilitating changes of communications provider and end-users' rights to terminate a contract, which are designed to ensure that end users are treated fairly and able to switch to a different provider in appropriate cases.
