

At last some sense has come from the top! The balance of the argument must tip in favour of PLBs and the cost saving of lives and SARs. It is long overdue and if this is approved will be absolutely brilliant for everyone including outdoor pursuiterers and farmers who often have to work in remote places. We campaigned for this back in 2007!

**Question 1:Do you agree with our proposal to exempt the land use of 406 MHz PLBs from the need to hold a Wireless Telegraphy Act licence?:**

Registration has to remain but agree that the licence could be dispensed with.

**Question 2:Do you agree with our proposal to exempt the use equipment for safety-related ITS infrastructure from the need to hold a Wireless Telegraphy Act licence?:**

No firm opinion

**Question 3:Do you agree with our proposal to exempt the use of terminals operating in the 3400 to 3800 MHz band from the need to hold a Wireless Telegraphy Act licence?:**

No firm opinion

**Question 4:Do you agree with our proposals for the authorisation of 2 GHz MSS user terminals from licensing?:**

No firm opinion

**Question 5:Do you agree with our proposal to exempt the use of terminals forming part of the Apollo network by a network station user exemption?:**

No firm opinion

**Question 6:Do you agree with our proposed changes to the current exemption regulations to permit use of non-specific SRDs at 138.2 to 138.45 MHz?:**

No firm opinion
