

Your response

Question	Your response
Question 1: Do you think we should permit more commercial trial activity under the Demonstration and Trial licence (including with paying customers) and whether we should impose any limitations on this?	Confidential? – N Yes. Commercial trial activity, including paying customers, should be permitted by Ofcom under the Demonstration and Trial licence to support meaningful operational demonstrations and pre-commercial deployments, as detailed in the attached document.
Question 2: Do you have any other suggestions for how the transition from trial to commercial deployment could be improved?	Confidential? – N Yes. To extend the trial licence until the commercial licence is issued for a seamless transition. This would ensure service continuity while keeping operations subject to the existing technical conditions, as further explained in the attached document.
Question 3: Do you think it would be beneficial to enable some longer-term licensing options for Innovation and Trial licences?	Confidential? – Y / N
Question 4: Do you think it would be beneficial to enable faster processing of low power Innovation and Trial licence applications, based on lighter-touch assessment? Are there any particular frequency bands or locations Ofcom should look to prioritise?	Confidential? – Y / N
Question 5: Do you have any other suggestions for improving Ofcom's current approach to Innovation and Trial licensing?	Confidential? – Y / N
Question 6: Are there new approaches to managing coexistence for bespoke spectrum licensing requests that we should implement to speed up the process?	Confidential? – Y / N
Question 7: Do you think that there should be a greater expectation for applicants to	Confidential? – Y / N

Question	Your response
provide the coexistence analysis to support their bespoke spectrum requests?	
Question 8: What do you think is the minimum security of tenure needed to support innovative uses?	Confidential? – Y / N
Question 9: Should we consider extending the Local Access licensing regime to other bands and technologies?	Confidential? – Y / N
Question 10: What do you think should be Ofcom's focus in updating how we licence spectrum to support wireless innovation? Do you have any other comments or views on the issues discussed?	Confidential? – Y / N
Question 11: Are there any other significant non-spectrum barriers to innovation for wireless services that you encounter?	Confidential? – Y / N
