<p>Question 7: Do you have any other comments?</p>	<p>Confidential? – Y/N</p> <p>Illicit mobile phones in prison present a substantial risk to prisons and communities. As part of the increase in mobile phone coverage obligations, particularly at frequencies like 700Mhz that will more effectively provide indoor coverage, the auction should consider options to actively support the government's policy position to deny service to illicit mobile phones in prisons. HM Prison and Probation Service would be happy to develop potential solutions, either technical or policy, that could be used to achieve this aim.</p>
