

## Your response

Question	Your response
<b>Question 1: Do you have any comments on our proposal to open access to the 5925-6425 MHz band for licence-exempt Wi-Fi use?</b>	<p>JRC notes that the energy utilities operate licensed fixed links within the L6 GHz Band and these will need to be protected as primary licensed users of the spectrum.</p> <p>We encourage Ofcom to establish adequate provisions to address interference and implement an effective process to deal with any link degradation suffered by the energy sector subject to the “Polluter Pays” principle.</p>
<b>Question 2: Do you have any comments on our technical analysis of coexistence in the 5925-6425 MHz band?</b>	No comment.
<b>Question 3: Do you agree with our proposal to remove DFS requirements for indoor Wi-Fi up to 200mW from the 5725-5850 MHz band?</b>	No comment.
<b>Question 4: Do you have any comments on other options that may be available for Wi-Fi and RLANs within the 5 GHz band?</b>	No comment.
