

Your response

Question	Your response
<p>Question 1 – Do you have any comments on the consultation proposals and analysis set out in the January 2020 consultation in light of the additional technical details which we are publishing in this document (see text added in grey boxes in Section 2 and the whole of Section 3)?</p>	<p>Confidential? – N</p> <p>Thank you providing additional information both here and through bilateral meetings.</p> <p>In our first response we raised a number of technical issues that we are aware Ofcom wish to address, but which have not yet been addressed through the new technical details. We have further discussed these with Ofcom and we understand that Ofcom are doing additional studies on this. We think the consultation needs to be extended to allow time for these additional studies to complete, to confirm or otherwise that coexistence will be achieved.</p>
