Question	Your response
Do you have any comments on our proposal to apply Code powers to the Applicant?	<p>Confidential? – N</p> <p>Not only do I object to the application of Code Powers to this applicant but I strongly object to their use altogether.</p> <p>Their use is contrary to the public interest, and destroy democracy. There is now clear evidence that this technology destroys human rights, human health and biodiversity.</p> <p>I do not believe there is any justification for their use apart from the reckless service of private short term profit at the expense of planet and people alike. The technology has never been subject to any due diligence or environmental assessment, and planning authorities are told that public health and biodiversity are not accepted as grounds for objection. Yet the risks associated with the technology are uninsurable.</p> <p>The whole situation is completely unacceptable.</p>
