Question 1: Respondents are invited to comment on whether they agree with Ofcom's preliminary view and to frame their views and responses with reference to, or in the context of, the statutory criteria in section 106(1A) of the Broadcast Act 1990 (as amended).

I feel that there is no other local Radio Station that fills the niche that XS Manchester fills. I do not feel I would be able to listen to the variety of music broadcast on XS through any other station. They provide a vital service through which local music can be promoted and I feel, personally, that it has introduced me to lots of music and events that would have otherwise passed me by. In the area I live this is the only local 'rock music' station aimed at my demographic.
