Question	Your response
<b>Question: Do you have any comments on our proposal to apply Code powers to the Applicant?</b>	<p><i>N</i></p> <p><i>The application of Code Powers recklessly ignores the overriding duty of OfCom to protect the health and safety of the public and the environment. It also rides roughshod over democratic processes and promotes the destruction of civil liberties in the interest of private profit. There is no ethical excuse for this failure of OfCom to exercise its over-riding duty of care (in common with all public bodies) to the public and the environment. This is an objection to this specific proposal and also all similar proposals.</i></p>
