

## Consultation response form

<b>Consultation title</b>	Local radio licence renewal: request from Sunrise Radio to add its Greater London AM licence to the list of “approved licences”
<b>Full name</b>	PHILIP ENGLAND
<b>Representing (delete as appropriate)</b>	Self

## Your response

<b>Question</b>	<b>Your response</b>
<p><b>Do you agree with our Preliminary View to approve Sunrise Radio’s request for its London AM licence to be added to the list of “approved licences”?</b></p> <p><b>Please provide evidence in support of your views.</b></p>	<p>I agree to your initial views in respect of Sunrise Radio on 963 &amp; 972AM being linked to its national DAB licence.</p> <p>Sunrise Radio is a much-needed part of the London &amp; South East England radio landscape, and not everyone who listens to it has DAB. In fact I think Ofcom should look at looking for a better AM frequency for the station that is more robust. I think the current AM frequency used by Gold (Global) in London should be offered to them in exchange for 963 &amp; 972 being turned off)</p>
