On 1 June 2026, Openreach notified several pricing offers.

We are inviting stakeholders to provide any initial views on the offers to assist us in forming a provisional view on:

- Where the offer notified to us is a Conditional offer, whether it raises competition concerns requiring ex ante intervention; and
- Where the offer notified to us is a Geographic offer, whether it raises competition concerns such that Openreach's application for consent to implement geographic pricing where this would be otherwise prohibited should or should not be granted.

Stakeholders may also wish to provide views on whether the offers raise concerns about low pricing in relation to Openreach's requirement for charges to be fair and reasonable and/or raise more general concerns about undue discrimination that is capable of harming competition.

Stakeholders are asked to respond by **19 June 2026**.

Comments

PXC welcomes the recently notified package of offers from Openreach. We are pro-competition in the supply of final mile connectivity given it drives value for ourselves, our partners and their end customers.

PXC will always make the commercially rational decision when placing orders with our suppliers.

These offers will not change our behaviour in that regard. We aggregate network connectivity across multiple suppliers and operate in this way whether in or out of a specific offer period.
