Additional comments:

Question 1: Do you think that allowing Digital One to extend the coverage area of its national radio multiplex licence to include Northern Ireland would be calculated to maintain or promote the development of digital sound broadcasting in the UK otherwise than by satellite? Please explain the reasons for your view.:

It is difficult to get DAB station UCB in some areas in Co Londonderry so it would be greater to have extended coverage

Question 2: Do you think that Digital One's proposals for providing coverage of Northern Ireland are satisfactory? Please explain the reasons for your view.:

Proposals look fine, will help everyone to listen

Question 3: Do you consider that Digital One has the ability to maintain its national radio multiplex service if its request is granted? Please explain the reasons for your view.:

Yes they have the ability to provide for everyone

Question 4: (For programme service providers on the national radio multiplex, and the holder of the Northern Ireland local radio multiplex licence and its service providers only) Do you consider that there are sufficient safeguards in place to protect your rights and interests in the event that Digital One is permitted to extend coverage to include Northern Ireland?:

Yes rights are sufficient

Question 5: Do you consider that there any other grounds on which Ofcom should approve, or not approve, the request from Digital One? Please explain the reasons for your view.:

Let Christian radio be available for everyone
