

## Response from Brian Copsey

*Question 1: Do you agree with our proposal not to include Channel 36 in the spectrum to be awarded?*

**YES**

*Question 2: Do you agree that the 600 MHz band should be awarded as a single 'lot'?*

**NO, you state your commitment to PMSE, in that case a total of at least 24 continuous MHz should be permanently allocated on a primary basis NOW to provide certainty to this valuable industry and prevent yet further extreme costs in changing or retuning equipment**

*Question 3: Do you agree that the licence should have an end date of 2026, with a minimum term until 31 December 2018 and a clause enabling it to be revoked after that date, subject to at least 12 months notice having been given?*

**Only for the TV activity the PMSE should be permanent**

*Question 4: Do you agree with the proposed service obligations for the licence, including roll-out and coverage obligations to ensure 50% UK coverage (and a minimum 25% in each UK Nation)?*

**No this should be reassessed after allocation of the PMSE spectrum**

*Question 5: Do you agree with our proposals to apply a cost-based fee instead of AIP?*

**In principle yes but will need readjustment after allocation of PMSE spectrum**

*Question 6: Do you have any other comments on the non-technical licence conditions that are being proposed?*

**Non-interference to PMSE**

*Question 7: Do you agree with the technical licence conditions we propose to include in the licence?*

**No there is currently insufficient evidence that the modulation schemes proposed and any filtering will not interfere with PMSE. A new paragraph should be inserted to state that no interference to PMSE shall be created**

*Question 8: Do you agree with our proposal not to restrict any party from participating this award process?*

**Only if all parties sign up to the points made in 2 and 6 above**

*Question 9: Do you have any comments on the proposed award process in the case of a single compliant Notice of Intention to Apply?*

**Only if all parties sign up to the points made in 2 and 6 above**

*Question 10: Do you have any comments on the proposed award process in the case of more than one compliant Notice of Intention to Apply?*

**Only if all parties sign up to the points made in 2 and 6 above**
