

**Additional comments:**

As a small business the availability of such frequencies allows me to complete a full package of communications to a potential radio outside broadcast client.

As Ofcom - a Government department - you should be encouraging and supporting small business's.

**Question 1: Do you agree with our proposal to allow high power PMSE use in channel 38 on 606.7 and 607 MHz at a maximum of 10 W ERP?:**

Yes. Also continued use in ch69 until a solution has been agreed.
