Additional comments:

Question 1: Do you think that allowing Now Digital to extend the coverage area of its Exeter & Torbay local radio multiplex licence to include North Devon would unacceptably narrow the range of DAB programme services available in the Exeter and Torbay area? Please explain the reasons for your view.:

NO

Question 2: Do you think that allowing Now Digital to extend the coverage area of its Exeter & Torbay local radio multiplex licence to include North Devon would be calculated to maintain or promote the development of digital sound broadcasting in the UK otherwise than by satellite? Please explain the reasons for your view.:

No view

Question 3: Do you think that Now Digital's proposals for providing coverage of North Devon are satisfactory? Please explain the reasons for your view.:

No - concerned that when FM is no longer available that we will not get good DAB signal

Question 4: Do you consider that Now Digital has the ability to maintain its local radio multiplex service if its request is granted? Please explain the reasons for your view.:

No view on this

Question 5: (For programme service providers on the Exeter & Torbay local radio multiplex only) Do you consider that there are sufficient safeguards in place to protect your rights and interests in the event that Now Digital is permitted to extend coverage to include North Devon?:

No view on this

Question 6: Do you consider that there any other grounds on which Ofcom should approve, or not approve, the request from Now Digital? Please explain the reasons for your view.:

Most definitely NO

Heart will get automatic right to carry on broadcasting in North Devon provided they provide digital signal sometime in the future

Heart is not local - Exeter is 60 miles away and Plymouth further

We need LOCAL radio - North Devon is a completely different marketplace and community and needs to have local radio to provide for and meet its specific local needs

I may as well listen to national radio than Heart !!

Please readvertise the FM licence to give North Devon the chance of having local radio brought back to the area
