**Additional comments:**

**Question 1: Do you think that allowing Now Digital to extend the coverage area of its Exeter & Torbay local radio multiplex licence to include North Devon would unacceptably narrow the range of DAB programme services available in the Exeter and Torbay area? Please explain the reasons for your view.:**

No

**Question 2: Do you think that allowing Now Digital to extend the coverage area of its Exeter & Torbay local radio multiplex licence to include North Devon would be calculated to maintain or promote the development of digital sound broadcasting in the UK otherwise than by satellite? Please explain the reasons for your view.:**

I have no particular view on this issue

**Question 3: Do you think that Now Digital's proposals for providing coverage of North Devon are satisfactory? Please explain the reasons for your view.:**

No. I don't believe that DAB signal will be strong enough.

**Question 4: Do you consider that Now Digital has the ability to maintain its local radio multiplex service if its request is granted? Please explain the reasons for your view.:**

No response

**Question 5: (For programme service providers on the Exeter & Torbay local radio multiplex only) Do you consider that there are sufficient safeguards in place to protect your rights and interests in the event that Now Digital is permitted to extend coverage to include North Devon?:**

No response

**Question 6: Do you consider that there any other grounds on which Ofcom should approve, or not approve, the request from Now Digital? Please explain the reasons for your view.:**

No. There is no guarantee Heart will provide a prompt upgrade in service for North Devon. Historically Heart do not provide current and relevant advertising or news services compared with their locality in Exeter & Plymouth. North Devon deserves and needs a locally based station broadcasting on FM to address this.
