

Stakeholder queries on Ofcom's consultation of 31 March 2011 on charge control review for LLU and WLR services

Stakeholder	Condoc page no.	Condoc para. ref.	Stakeholder query	Ofcom response
Virgin Media		Fig 7.2 & 7.22 and 1.2	This is a specific query on WLR. The current price is £103.68 (e.g. figure 7.2); RPI = 4.5% (figures 7.22); X = 4.5%; Therefore RPI-X to derive price from March 2012 is 0%. Therefore I make charge control price for 1st period £103.68, but the consultation states £103.70 (as per figure 1.2). Can you explain this?	You do understand the calculation correctly. £103.70 is rounded to the nearest 10 pence. Accuracy to the 2 decimal places seems inappropriate given the range of assumptions under consultation.
