Additional comments:

Question 1: Do you consider that our proposed fee rates for licences in the aeronautical VHF frequencies are appropriate?:

No

Question 2: In devising our revised proposals, have we identified all of the aeronautical uses of VHF communications frequencies which require a distinct approach to fee setting, as set out in tables 5 and 6?:

Yes

Question 3: Do you agree with our proposal not to charge any fees for Fire assignments?:

No. No increase in fees should be charged for any purposes

Question 4: Do you agree with our proposal to set a £75 fee for licences in any of the sporting frequencies?:

No. No increase in fees should be charged for any purposes

Question 5: Do you agree with our proposal to set an annual fee of £19,800 per ACARS or VDL assignment, with no variation related to the number of transmitters?:

No. No increase in fees should be charged for any purposes

Question 6: Do you consider that our proposed approach to phasing in fees for use of the aeronautical VHF communications channels are appropriate? If there are particular reasons why you consider that any user or group of users would need longer phasing-in periods, please provide any supporting evidence for us to consider. Specifically, do you have any evidence for us to consider that would support either of Options 1 and 2 for the highest proposed fee in this sector?:

No. No increase in fees should be charged for any purposes

Question 7: Do you have any further quantified information to contribute to the analysis of financial impacts of the proposed fees on particular spectrum users, as set out in Annex 5? We would like to publish all responses, but will respect the confidentiality of any material which is clearly marked as such.:

No

Question 8: Do you consider that our assessment of the impacts of our proposals has taken full account of relevant factors? If you consider that there is additional evidence that would indicate particular impacts we should take into account, we would be grateful if you could provide this.:

No. the arguments regarding releasing bandwidth are not grounded in reality.

The effect of these changes will be that A/G services will withdrawn from many GA airfields, in due course there will be an accident and, given the nature of flying, it will result in fatalities.

the safety case cannot support these changes
