Dear Yvonne,

**Re: Ofcom PTV3 Consultation**

In response to the consultation document concerning the reclassification of Psychic PTV as teleshopping and the proposed restriction of EPG genre in which content can be broadcast, Wedding TV would like to note our objections.

As a small independent satellite channel we are reliant upon commercial airtime, and additional airtime sales such as teleshopping / Psychic blocks. Should any restriction of EPG genre be applied to Psychic, it would impact on our channel, significantly reducing profitability. In light of the current economic climate, we feel these proposals, if actioned, would be highly detrimental to Wedding TV and other broadcasters who operate under similar business models.

Yours Sincerely
