

Question 1: Which of the three options do consultees favour, and why?:

I favour option two (20 percent) because I would like to have the choice of watching any tv channel as the opportunities for choice expand.

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:

Audio description included in trailers for forthcoming programmes, that would help me understand the content of the coming programme.

Also electronic programme info, - Audio description of Opera or Drama in foreign language.

Comments:

I am totally blind, I have used AD over the last 6/8 years I did not watch tv before and do not watch programmes without ad other than the BBC news channel.
