

Question 1: Which of the three options do consultees favour, and why?:

Option 2. An increase in audio description to 20 per cent for all channels required to provide access services.

Why: I've had the pleasure to introduce the facility to people living with sight loss. Once shown this option becomes an invaluable facility.

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:
