

Question 1: Which of the three options do consultees favour, and why?:

Option 2, basically because AD has made TV so much more enjoyable and accessible for blind people - there's really no comparison. The number of times I've watched a film or a television programme without AD and then afterwards with it - there's so much more you get out of it.

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:
