

RE: AUDIO DESCRIPTION FOR DIGITAL TELEVISION

Dear Ofcom,

I would ask you to please adopt Option 2 - extend AD to 20% of all digital channels. With our ageing population and the associated increase in sight problems like macular degeneration it is imperative that AD is extended to as much of digital television as possible. It is essential for the public broadcast channels to have AD as it is probable that government will increasingly use digital TV as a means of communicating important information to the population.

I am happy for you to publish my name.

Yours,

Carmel Collins
