

Question 1: Which of the three options do consultees favour, and why?:

Option 2, an overall increase to 20%.

Blind and partially sighted people often have restricted mobility options, particularly in the older age groups. Watching television can be a major part of their daily activity, more so than with sighted people. It is only right that blind and partially sighted people should have the same access to their choice of programme.

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:
