Question 1: Which of the three options do consultees favour, and why?:

Option 2 because this would give the biggest coverage.

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:

Audio description is satisfactory at present but sometimes where it falls down is in failing to announce the name of a character when they start speaking.

Comments:

I find that audio description is generally excellent where documnentaries are concerned.
