

Question 1: Which of the three options do consultees favour, and why?:

Option 2, because I'm registered blind and all I see is shadows on the screen. When there's a comedy programme, for instance, all the audience will laugh and I can't see what's happened. I watch soaps and dramas and the audio description is wonderful.

My wife is not blind but she also enjoys it.

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:

I'm quite happy with what's going on - there is always a programme I can watch somewhere.
