

Question 1: Which of the three options do consultees favour, and why?:

I would like all TV stations to provide 20% of all programmes to have Audio Description. This will help people who have a problem with eyesight.

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:

Comments:

The current limit of 10% seems very low and even 20% is a small percentage of all programmes.
