

Question 1: Which of the three options do consultees favour, and why?:

Option 2. Basically the AD I've seen has enhanced my enjoyment of tv programmes to such an extent that the more AD I can get hold of the richer my tv experience will be.

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:

Have noticed that most AD has been on entertainment programmes - would like to see more AD on information/documentary programmes, especially where interviews in foreign languages are contained within the programme.
