

Question 1: Which of the three options do consultees favour, and why?:

option2 to enable me to have the widest choice as possible

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:

thought needs to be given on how sight impaired people can access and interact with the increasing number of digital services.

Comments:

Having spent a month abroad recently with no audio description access to television, it made me appreciate just how important this service is to me.
