

Question 1: Which of the three options do consultees favour, and why?:

Option 2

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:

I'm totally blind and when there is no sighted person around, I don't watch television unless the programme has audio description.

It is a huge improvement and I find it helpful. And it has improved since it has started as it can be a difficult thing to do and the describers are learning and are improving with practice.
