

Question 1: Which of the three options do consultees favour, and why?:

Option 2 - to provide the best possible Audio Description available to help blind and partially sighted people receive full descriptions of TV programmes and enhance viewing/listening. To enable blind and partially sighted people to get a similar experience to fully sighted people.

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:

To further increase Audio Visual services to give even greater coverage.

Comments:

Having lost my sight after 30 years of full vision, Audio Description gives me the opportunity to enjoy programmes fully.
