

**Question 1: Which of the three options do consultees favour, and why?:**

Option 3 because audio description is very important while watching certain programmes. Without AD watching TV can be very frustrating.

**Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:**

Audio Description should be far easier to load up on your digital box without having to have a sighted person assisting.

It should be made more available and easier to access in hotels.

**Comments:**

All the major programmes such as the soaps and the reality shows like X Factor should be audio described.
