

Question 1: Which of the three options do consultees favour, and why?:

Option 2, because I really benefit from Audio Description as a blind person and the more there is the better.

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:

Always after more talking menus; for example, this is unavailable on Sky Plus meaning the service can't be utilised.

Comments:

Heard about the consultation document a while ago as a campaigner with RNIB and also through their mailing list. Found the online form a little difficult - when asked to choose an option, was not able to find them.
