

Question 1: Which of the three options do consultees favour, and why?:

I favour option 2.

I have a blind partner and having purchased a "digibox" with audio description, I am disappointed and frustrated by the lack of AD programmes.

There was a recent Channel 4 documentary in the "Secret Millionaire" series in which the millionaire subject had lost her sight due to Retinitis Pigmentosa, and was seeking worthy causes amongst services for the blind. A programme of obvious interest to visually impaired people, but to my amazement, not audio described.

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:
