

Question 1: Which of the three options do consultees favour, and why?:

20% We Need more, my partner is totally blind its a nightmare without audio as I miss a lot of the programme whilst explaining to him whats going on.

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:

He also needs a talking menu guide to find a channel, at the moment he has to rely on me to find the programme hear wants to hear.

Comments:

I,m really hopeful that we get 20% or more it would make my life a lot less fraught, it might stop my partner constantantly moaning that there is nothing for him to watch!
