

Question 1: Which of the three options do consultees favour, and why?:

I favour option 2 because a blind or partially sighted person should be allowed to choose for themselves which programmes they watch. It is more in line with the DDA that access is available to as wide a choice as for sighted people.

Audio description within a greater number of programmes enhances the blind or partially sighted viewer's access to television as a shared community experience and educational tool. It is a valuable source of information in audio format.

Question 2: Do consultees have any further suggestions for future access service provision? If so please provide the rationale for these suggestions:
