

Q1 Do you agree with Ofcom's view that the proposed non-emergency healthcare service represents a justified use of a three-digit number? Please give reasons for your views. :

Yes it would be easier and quicker to remember in urgent situations when your prime concern is health and not finding the correct local number

Q2 Do you agree with the DHs view that:

**A) a three-digit number is the best choice for the proposed service and
B) of the three-digit numbers available, 111 is the best option?**

Please give reasons for your views. :

Yes it is very logical to use the opposite of 999. America use 911 so there is already a subconscious link to using the number 1.

Q3 What are your views on the tariff options selected by the DH? :

I don't mind paying for the service although I also don't like being ripped off. I think the number should be payable at a local rate tariff and everyone should pay.

Q4 Do you have any comments on the proposed notification of modification to the Numbering Condition in Annex 8 of this document:
