

Q1 Do you agree with Ofcom's view that the proposed non-emergency healthcare service represents a justified use of a three-digit number? Please give reasons for your views. :

Not sure.

Each PCT should have information about the services provided locally

Q2 Do you agree with the DHs view that:

**A) a three-digit number is the best choice for the proposed service and
B) of the three-digit numbers available, 111 is the best option?**

Please give reasons for your views. :

A.

If it is put in place then a 3 digit number would be the easiest number for people to remember.

B.

111 is not a good choice. It is too similar to 112 and 118 so could easily be misdialled which could block emergency calls on the former number.

222 or something similar would be preferable

Q3 What are your views on the tariff options selected by the DH? :

Negotiations should take place to ensure a national tariff across all suppliers

Q4 Do you have any comments on the proposed notification of modification to the Numbering Condition in Annex 8 of this document:

none
