

Question 1: which services are most likely to drive take up of DTT consumer reception equipment using new technologies? In particular, are HD services the most likely to do so?:

no

Question 2: do you agree with Ofcom's assessment that it would be beneficial for the DTT platform to begin to upgrade to new technologies ? DVB-T2 and MPEG-4 - to make more efficient use of spectrum and to allow for the introduction of new services?:

No, I believe it will alienate people who have already invested in current MPEG-2 technology to have to upgrade to MPEG-4.

We are currently being forced into accepting freeview across the country and are buying into what may be redundant technology in 2 years time.

Question 3: Ofcom is particularly interested in hearing from multiplex operators and programme providers as to whether they are interested in using DVB-T2 and / or MPEG-4, and whether Ofcom should consider permitting their use on DTT?:

Question 4: do you agree that the earliest possible availability and adoption of the technologies is in the interests of consumers and citizens?:

This will go the same way as DAB radio no wide support.

Question 5: do you agree with Ofcom's view that DVB-T2 MPEG-4 reception equipment could be commercially available in time for DSO in Granada region in late 2009?:

Can we get decent coverage of freeview across the whole country first

Question 6: do you agree that some form of intervention is required in order for the DTT platform to commence an upgrade to new technologies without delay?:

no

Question 9: do you agree with Ofcom's proposal that Multiplex B should be cleared and upgraded to new technologies?:

NO we want more varied television, not more of the same television which only the minority will receive.

Question 10: do you agree with Ofcom's proposal that all multiplexes should be required to upgrade to 64QAM at DSO in order to make the

most efficient use of spectrum (ie that the mode change should not merely be optional)?:

No

Question 11: do you agree with our proposals for accommodating Five, S4C, TG4 and GDS on Multiplex 2?:

No

Question 15: Do you have an alternative proposal for the reorganisation process? If yes, please provide details.:

yes, do not reorganise

Question 22: Do you agree with Ofcom's impact assessment?:

HD does not provide quality TV, content is what drives quality TV. All this offers is HD.
